All the beauty of natural wood, expertly replicated in wide plank micro-bevelled LVT

DRIFTWOOD EL21

ELEMENTS LVT

With natural swirls, subtle lines and soft hues, the Elements Realistic Embossed LVT Collection has an authentic finish, designed to perfectly replicate and imitate natural real wood flooring, all while being fully waterproof and extremely durable with engineered toughness.

The waterproof properties and overall outstanding performance make Elements LVT an especially good choice for every room in the home, as well as being suitable for communal or office areas. With the wide planks and 4-sided micro-bevelled edges, you would be forgiven for believing it wasn't real wood!

The Elements Collection offers you complete peace of mind with a fully-backed lifetime residential and 15 year commercial warranty.
