# ELEMENTS LVT

With natural swirls, subtle lines and soft hues, Elements Realistic Embossed LVT has an authentic finish, designed to perfectly replicate and imitate natural real wood flooring, all while being water resistant and extremely durable with engineered toughness.

Elements also excels with a 0.55mm wear layer and its suitability for underfloor heating, making it an especially good choice for every room in the home, as well as being suitable for communal or office areas. With the wide planks and 4-sided micro-bevelled edges, you would be forgiven for believing it wasn't real wood!

Herringbone is available in 6 colourways while planks are available in 10. Elements offers you complete peace of mind with a fully-backed lifetime residential warranty and a 15 year commercial warranty as well as being a fully recyclable flooring product.
